For sometime we've had a leak in our swimming pool. We had a leak detection company come out and locate ~~the~~ the leak. Today was the day to cut the concrete deck and to find the cracked PVC pipe. Sadly, half of the PVC pipe is buried in the sidewall of the pool tank. Making it almost impossible to make the repair! 😞 Another day in the life of a camp guy!

Thanks to my friend Dave from Michigan for helping me with the pool today.

The front of the dining hall at Tri-State Christian Camp has come along way. From removing the porch screens to removing the trees and adding a patio, then adding a cover over the patio. And then finally getting the cypress siding on. Thanks to so many volunteers that have helped with the project thus far! 🙌🙌 Should finish up next week!

Thanks so much to First Christian Church of Defuniak Springs for buying this Ford Expedition for the camp and taking the pressure off Randy's back 🙏🏻

Now we will have the proper size vehicle to pull all of our programming pieces 🙏🏻 to events around the state!

Our house project in Panama City is coming along pretty good. House has been drywalled and painted. Finishing up the flooring this week! A little short on funds to finish up! If your missions has a little extra by the end of the year, it would be much ~~coo~~ appreciated! Contact Randy at the camp to help.

We're getting ready to pour the footer & slab on cabin #6 addition. The addition is to accommodate those with special needs. Will be adding floor space and re-designing the bathroom.🙏🏻
